

VEHICLE PARKING

Western Australian local governments have individual local laws relating to parking.

These restrictions are imposed to regulate vehicle parking and to assist in reducing potential pedestrian conflict.

Parking Officers and Rangers are authorised to enforce these laws.

The above signs are only a small number of parking restriction examples

It is a driver's responsibility to educate themselves on parking restrictions and the associated signage.

Examples of typical offences that impact on the community

Parking on a footpath outside a school

Vehicles parked over a footpath

Unregistered vehicles on nature strips

Parking contrary to signs

Parking in a bus stop

School parking restrictions

Parking correctly and considering others may stop the public that do the right thing from becoming frustrated.
